Cincinnati Convention

Cincinnati May 1—After the close of the sec[illegible] meeting [illegible] H H the canvass of [illegible] Presidential candidates was resumed. Greeley's chances seem much improved and some of Davis earnest supporters appear to have been transferred to Greeley.

The support of the [illegible] is assured [illegible] It is claimed that the Greeley [illegible] Republican [illegible] New York and [illegible] his name causes great enthusiasm. The Southern delegates say he is the strongest candidate. The New York delegation held a meeting this afternoon and resolved to cast the vote of the State as a unit for Greeley.

Notwithstanding the furor for Greeley the supporters of Davis continue confident and report that the Virginia and part of the Iowa delegation are added to his support. This evening Pennsylvania reported ready to go solid for Davis after a complimentary vote for Curtin. It is the opinion of Ben Perley Poore and others that Davis is still the strongest candidate.

The Ohio and New England supporters of Adams have been at work. At a meeting of their delegation and those of Ohio, Michigan and Wisconsin it was voted to support Adams solidly. With Indiana's vote Adams will be nominated but up to this hour Indiana is divided. Adams Davis and Greeley are prominently before the convention and nearly equal in strength. Trumbull, Palmer Brown Chase Fenton and the other candidates are virtually out of the way.

A private letter is just published from Chief Justice Chase which contains his reply to an inquiry whether he would accept the nomination for President if tendered him. He says he does not want it but might not decline. Cassius M Clay and Senator Schurz are prominently mentioned in connection with the Presidency of the Convention.

Senator Fenton has gone home.

Various constructions are placed on the sudden movement in the Tariff plank which is not yet settled. It is understood that the Revenue Reformers say that if Greeley is not nominated however they insist on the declaration being explicit.

Eighty thousand words of specials were forwarded yesterday by the Western Union Lines—an amount unprecedented in the annals of telegraphing.

WASHINGTON CITY

Congressional

WASHINGTON May 1—In the Senate the bill passed repealing the provisions of the Army Appropriation act of 1870 prohibiting promotions on the staff of the army.

The [illegible] regulate elections in Washington and Idaho Territories passed.

The Naval Appropriation bill came up.

Cragin moved an amendment appropriating $10,000 for the experiment of converting smooth bores into rifles. After a long discussion, the amendment was rejected.

An amendment making the pay of Chief Engineers in the Navy equal to those employed in naval construction yards was adopted and the bill passed.

The Senate adjourned.

In the House the bill to repeal the duty on tea and coffee as amended in the Senate to go into effect July 1st passed.

The House went into Committee of the Whole on the Tariff bill.

An address was made by Kelly who gave notice that he would, at the close of the debate on Friday, move to strike out the enacting clause and directing the Committee on Ways and Means to report back the substitute offered on behalf of himself and Maynard. Several speeches were made and a recess was then taken up to [illegible] P M, the evening session to be devoted to Territorial business.

Additional Washington News

WASHINGTON May 1—The President approved the bill repealing duties on tea and coffee to go into effect after the 1st of July.

Inquiry in official sources elicits the fact that Sickles took out instructions relative to the release of Dr Howard in the spirit of former communications. The immediate object of Sickles' return is to bring home several members of his family and present his letter of recall, he having for sometime contemplated withdrawal. His successor will not be appointed for sometime.

It is ascertained from authentic sources that while the Government has not withdrawn and will not withdraw the claims for consequential damages it has signified to Great Britain that no money award is anticipated or desired but simply a decision of the question involved touching the duties and obligations of neutrals.

The Senate has confirmed E. B Watson Register at Linkton Oregon.

The [illegible] says the project for a city library at Salem appears to have been dismissed from public consideration.

Dr W T Wythe formerly of this city, son of the former pastor of the Taylor street M E church has gone East as a delegate to the American Medical Association.

The Indians on the Grand Ronde Reservation appear to be progressing in civilization. They have established Justices Courts in which many of their disagreements are adjusted. It is stated that litigation has become a passion with them.

A letter from Union county informs us that there is tremendous strife among the Democracy there. Aspirants for the offices are numerous and the fight is bitter and personal. The primaries were held last Saturday. It is believed Henderson will be renominated for the Senate and a bolt is expected.

A correspondent at Hillsboro sends us the following under date of May 1st. The Washington County Lodge of Good Templars met here today. After holding session a splendid [illegible] was prepared and [illegible] to partake of the good things of this life. The edibles were [illegible] up in good style and were particularly [illegible] Mr Leland lectured [illegible] after which the lodge again went into session.

The temperance element, together with the churches are exerting a powerful influence on Washington county for good, making it one of the most desirable localities for labor and order-loving people to settle in in the State. The fact is alluded to with considerable pride that no agricultural county in the State is more prosperous or freer from petty crimes and annoyances than Washington county or enjoys greater church, Sabbath and day school privileges.

Two men having arranged to fight a duel in Rhode Island the Governor issued a proclamation forbidding it, whereupon one of the parties sent him a note saying that one of them would stand in Connecticut and the other in Massachusetts and shoot over his miserable little State.

CINCINNATI May 2—The Cincinnati Liberal Republican Convention resumed at 10 o'clock A M. The hall and galleries are filled. The appearance on the stage of Susan B Anthony and Laura DeForce Gordon was greeted with cheers and hisses. At 20 minutes past 10 o'clock the Convention was called to order and a committee appointed on permanent organization consisting of one from each State and Territory. A committee was also appointed on rules and a committee on credentials of one from each State and Territory. Also on resolutions a committee of one from each State. The Chair read a communication claiming a seat in the Convention for Laura DeForce Gordon as representative of California which was referred amid laughter to the Committee on Credentials.

Belden, of New York presented a protest by a majority of the New York delegation against the action of the minority who insist that the vote of the State in the Convention be cast solid for Greeley. WASHINGTON CITY.

Not to be Withdrawn

WASHINGTON, May 1—It is ascertained from authentic sources that, while the Government has not withdrawn and will not withdraw our claims for consequential damages, it has been signified to Great Britain that no money award is anticipated or desired by the United States but simply a decision on the question involved touching the duties and obligations of neutrals. Should Great Britain propose to stipulate that, in the event of a war in which she would be a belligerent and the United States a neutral, she would make no claims for consequential losses from the failure of the United States to observe their neutral duties this would be accepted as settling the point at issue and the United States would agree to refrain from pressing for a money award for indirect claims before the Geneva tribunal. It is not known whether such an agreement will or can be reached. The United States has made no proposal but if such an arrangement should be proposed by Great Britain it would be acceptable to both nations. This, beyond doubt is the extent of what our Government thought possible or contemplated.

Congressional.

WASHINGTON May 2—The House Committee on Education and Labor to day considered the bill providing for making contracts for labor with the inhabitants of foreign countries, the intention of which is to prevent the importation of Chinese under the present contract system but as a similar practice prevails to a great extent in the immigration of natives of Europe the committee does not deem it advisable to adopt a general measure of this character and as the Government of China would be offended at any special legislation aimed at the citizens of that country the opinion prevails that the entire question had better remain undisturbed.

In the Senate the Postoffice Appropriation bill came up, the pending question being on the increase of the subsidy for the China service to $1 000 000 per annum.

There are no indications of a stock excitement on the street, all transactions now being in doors. There is much anxiety as to the probable course among all classes but the feeling is so generally confident that anything like panic even in case of a considerable decline appears impossible.

A report this morning that E. L A Roche had fallen dead with apoplexy while conversing with Major Livermore was circulated by his friends to conceal real facts of a painful nature. These facts are that he had suffered one attack of apoplexy and has of late complained of a severe pain in his head which the heat of the last few days aggravated to an extent rendering him really insane. Last evening he complained greatly of it and said his life was becoming unbearable. This morning his servant brought him the morning papers and left him lying in bed reading them. About 8 o clock a dull noise was heard but no particular attention paid to it. Soon after it was found that he had blown his head into fragments with a revolver. His mining and other interests were in a prosperous condition and he had no cause than that already assigned for the act. He was sixty years old and unmarried.

The Committee of 100 to day presented to the St Louis delegation a formal proposition for building the Atlantic and Pacific or 35th parallel road which will undoubtedly be accepted. The Company to be incorporated here with $25 000 000 subscribed capital to immediately commence the construction of the road eastward to the Colorado river and secure six per cent, 200 year city bonds under the five per cent act, the interest on which is to be paid out of the earnings of the road as soon as finished to the Colorado river. St Louis is to do the same for the construction of the road from the present terminus to the Colorado river. Each Company is to build at least 200 miles annually and make the junction at an agreed point within five years from the commencement of the work. The Atlantic and Pacific Company are to concede to the San Francisco Company all rights to grants of lands depots and terminal sites and the Government aid of all forms for [illegible] section of the road, and if either party fails to construct its respective share of the road up to the point of junction within the time the other is to go on with the construction until the junction is made and receive all benefits and aid for that part of the line so constructed to which the other would have been entitled. The terminus is to be in Mission Bay. The St Louis party are now in consultation. It is understood that the terms are satisfactory and will be accepted.

An exchange thinks that Mayor Medill of Chicago ought to have an inventor's medal. He has found and appointed as Directors of the City Library nine men who represent all the principal trades and professions all the divisions of the city and the Baptist Universalist Methodist, Episcopalian Presbyterian Unitarian, Catholic Hebrew and Free thinking sects.

A project is said to be in contemplation for establishing a line of tug propellers in the Straits of Magellan to enable sailing vessels to avoid the longer and more dangerous circumnavigation of Cape Horn. The passage of the Straits by sailing vessels has seldom been found practicable but with propellers furnished with intelligent pilots the difficulties of the case could be readily overcome.

THE COST OF TUNNELS.—The following table of the cost of several of the most important tunnels now open or in course of construction shows that the Hoosac Tunnel with one exception (the Mount Cenis) is the most expensive of all. This has cost up to the present time at the rate of $900 per linear yard. The Mount Cenis Tunnel cost $975 per linear yard. The three most costly tunnels made in England have been the Kilsby the Saltwood and the Bletchingly each of which was executed in treacherous strata giving out large quantities of water. The Kilsby Tunnel cost $725 per yard. The Saltwood Tunnel cost $590 per yard and the Bletchingly $360. The cost of the railway tunnels in France has varied from $150 per yard—that of Terre Noire on the Paris Lyons and Mediterranean Railway, to $475 per yard that of Batignolles, near Paris, on the Chemin de Fer l'Ouest. In Belgium Braine le Compte cost $230 per meter and the tunnels on the Liege and Verviers line $250 per meter. In Switzerland the very difficult Hauenstein Tunnel between Basle and Berne, cost $400 a yard. The Moorhouse Tunnel in New Zealand, through lava streams and beds of tufa, intersected by vertical dykes of phonolite, cost $345 per yard. It is estimated that it would cost $650 per yard to construct a tunnel under the English Channel between England and France, or about $25,000 000 for the whole distance—not so expensive an undertaking as many would suppose.

MISCELLANEOUS NOTES

A [illegible] exchange recently headed an article about the killing and eating of a missionary with the line "Missionary Life in New Zealand." If such is life we should like to know what death and entombment are?

It is estimated that there is 4,000 whisky saloons and groggeries in the city of San Francisco which annually sell 20 000 [illegible] of lager beer 2 000,000 gallons of whisky, brandy and other spirits, and 500,000 gallons of wine besides liquors, bitters syrups, etc., the total value of which foots up nearly $10,000,000 annually.

A movement having its birth in Philadelphia, is on foot to raise the sum of $50,000 for the purpose of erecting a monument to the late and lamented Major General George H Thomas. It is as little as a grateful people could do to thus pay trifling honor to the memory and worth of the noble departed hero whose name will live forever on a bright page of our national history.

It is hinted that France and Spain are about to form an alliance for defensive and, if need be, offensive purposes. The two countries are now so thoroughly reduced that they need to lean upon each other for support. Should such an alliance be formed, more color will be given to the statement that France desires to recede from her war obligations to Germany, and recover the ground she lost in the late struggle.

The Puget Sound *Courier* says, a meeting was held in Olympia last week to devise means for procuring the railroad on the east side. A committee, consisting of Gen Miller and two other gentlemen, was appointed to see if the requisite land could be had to donate to the Railroad Company. The quantity of 795 acres had been already secured, but 205 acres more were needed to gain the object. The Committee were to report progress at an adjourned meeting to-night.

Two penitentiary birds escaped from the Idaho Territorial prison on the 25th of April. They were Al Priest and Ah Gow. Priest asked his guard for permission to "go and get a drink," and being gone for a longer time than was thought necessary, search was made and it was found that he had slipped his shackles, gone through the window and left the premises. In the hurry of the moment Ah Gow was not closely watched, and he "skedaddled." Neither of them had been recaptured at last advices.

Still Another Testimonial from a Prominent Citizen of Greenville, Washington County.

TO THE AFFLICTED—I WISH TO STATE THAT for nine years I was a great sufferer with Nasal Catarrh Throat and Lung Disease, bad discharges from my head Cough, great difficulty of breathing, pains through my chest and Dyspepsia [illegible] weaker and losing flesh. No treatment [illegible] to relieve me. Hearing of Doctor Aborn's great [illegible], I decided to try his skill in my case. On the 2d of January last I visited Portland, and placed myself under his treatment, and found immediate relief of my pain in the breast, and the difficulty of breathing was also relieved at once, and I have continued to improve from day to day until now I feel quite well. I can breathe freely through my nostrils, which were [illegible]. My lungs are healing rapidly. I can now [illegible] quite clear and easy. I have [illegible] about [illegible]. My general health has been so [illegible] that I look and feel like a different man. I have been able to [illegible] and do other work on my farm during the last three or four weeks without [illegible]. GENERAL PROSTRATION OF THE WHOLE SYSTEM

JACKSON POWELL, of Powell Valley Oregon.

To the Afflicted—*To those who are afflicted that they may know where to find that great prize—Health I make the following statement of facts concerning my case.*

For fifteen years I have been afflicted with Nasal Catarrh at times so that I could not breathe through the nostrils accompanied with disagreeable discharges. The disease worked down into my Throat and Lungs, so that of late I have suffered with Asthma, so bad at times that I thought I could not live. I had almost a constant cough with copious expectorations and my whole system was prostrated. When I applied to DR. ABORN last November I did not expect to live through the winter. But thanks to DR. ABORN'S Skillful and Successful mode of treatment, I to-day look and feel like a new man. I am entirely cured of the Asthma and Bronchial Disease. My nostrils are free, appetite good, flesh solid and healthy and I have gained fifteen [illegible] and have been able to work on my farm for several weeks past. I have had the pleasure of witnessing several [illegible] cures performed by DR. ABORN and am fully convinced that he possesses rare ability and skill in the [illegible] of Chronic Diseases. I heartily recommend him to the afflicted.

FRIDAY MORNING MA[illegible]

Democratic Logic for the Campaign

[illegible] substantial [illegible] the Republican party [illegible] have appeared in his paper [illegible] distant [illegible] tion under discussion [illegible] ment [illegible] the [illegible] city Therefore the Republican [illegible] Oregon [illegible] densation of about a dozen articles of great length which has appeared in the [illegible]

The logic of this argument [illegible] the Democratic organ of Benton county [illegible] order to prove that the Legislature of Oregon has power to fix rates of transportation on the railways of this State a decision by the Supreme Court of Wisconsin [illegible] affirms that the Legislature of that State has power under their State Constitution to do so We have only to say to the organ in Benton county that whenever the Constitution of the State of Wisconsin becomes the supreme law of Oregon the doctrine of this decision will apply here but at present the Constitution of Oregon expressly forbids such application

Returning to the question now agitating San Francisco it may be remarked that it is so purely a local question that few of the people of California outside of San Francisco care anything about it The interior papers say that San Francisco may look out for her local interests It is so purely a local question that the delegates from the interior counties to the Republican State Convention at Sacramento last week would not discuss it in Convention at all And the Stockton *Independent*, though an opponent of the Central Pacific Railroad said The delegates from the interior of the State were not disposed to allow the local interests of San Francisco to create dissensions in the ranks of the party The people of San Francisco may also make up their minds to the fact that the Convention represented the feeling of the people of this State upon that question If they will manifest a desire to protect themselves by the construction of another road to compete with the one now built they will receive the support of the interior but when they ask the people to aid them to continue their levy of tribute upon the commerce of the State, they should not expect aid from those who are to be taxed for that purpose

This is the question which the *H[illegible]* insists is the vital issue in the approaching election in Oregon

Substantial Results

It cannot be successfully denied that the policy and practice of the Republican party are retrenchment and reform in the conduct of public business and a steady reduction of taxation No better evidence of this fact need be cited than the fact that since President Grant assumed the administration of the national debt which at one time bore so oppressively on all the interests of the people, and appeared so large that its cancelling was despaired of even by those who were most confident and enthusiastic over the ability of the people to accomplish great things in the way of raising revenue, has been decreased so rapidly as to inspire the hope that the present generation will live to see the nation entirely out of debt Look at the figures Grant has been in office a little over three years At the commencement of the administration the machinery of the Government was out of order, having been run in the loose, disorderly and slipshod manner which marked the abortive efforts of Andrew Johnson to preside over the nation Necessarily some considerable time elapsed before everything was got into system again, and the various departments of the public service cleaned out of dishonest persons who having bought their places from the agents of the accidental President were making the most of them honestly and dishonestly But mark the change In thirty seven months of Grant's Presidency the national debt was reduced $315 131 777 or an average per month of over $8,500 000 The good work has not stopped There is no inclination on the part of the Government to relax its efforts

There has been collected under Grant's administration a sum aggregating nearly twelve hundred million dollars there has been paid out nearly a thousand millions making about twenty-one hundred million dollars to be handled There has been lost, out of this immense sum in all the departments of the Government one million and a quarter—less than a fifteenth part of one per cent There has been paid out during these three years ninety million dollars in pensions and there have been five defalcations But the Government has not lost a dollar for the agents made good their accounts, or their sureties did it for them

Here are substantial results [illegible] any combination of trading Republicans and Tammany-producing Democrats likely to do better?

Mr Slater is trying to get a land grant for a railroad for Eastern Oregon Mr Burnett opposes the policy and will not advocate the grant He is pledged in advance against making any effort in this direction The platform adopted by his party ignores the whole subject Their Convention refused to consider it Mr Burnett if he goes to Congress, will not ask for aid for the development of the railway system of the country The *Herald* grumbled a day or [illegible] because Oregon did not get aid [illegible] the General Government [illegible] by sending such a man as Mr Burnett to Congress?

The dispatches are full of Jasper Johnson's achievements at the Cincinnati Convention The idea of his appearing as a representative of Oregon is sufficiently ludicrous But if it was necessary for somebody to go from Oregon to Cincinnati all will agree that Jasper comes up to the Dogberry test as the most senseless and fit man

The Walla Walla *Union* sums up the Oregon Democratic platform on the subject of corporations and internal improvements and says it amounts to just this More aid to the Wallamet Locks Company [illegible] Ben Holladay and let Eastern Oregon take care of itself A very clear and [illegible] summary

Mr Burnett was [illegible] the duty on tea and coffee Congress has passed and the President has approved a bill to make these articles free A plank has been knocked from under Mr Burnett [illegible] sad

SLAPPED

[illegible] last [illegible] town paper says [illegible] Chapman President of the Salt Lake and Portland Railroad arrived in [illegible] City by [illegible] overland [illegible] from Washington and will leave for Portland [illegible] Lee [illegible] work [illegible]

[illegible] danger [illegible] I think I may pledge [illegible] will [illegible] Mr Sumner [illegible] Mr Schurz will [illegible] Mr [illegible] Mr Greeley will [applause] [illegible] Looking to the future we say [illegible] Though we [illegible] ideal President who might do nobler and better things we know [illegible] better than the one who has guided our steps during the past four years

This is said with Mr Beecher's [illegible] The country [illegible] It [illegible] not seek it The country finding that he has more than fulfilled his pledges and being satisfied with him is calling him again

One of the Conventions now in progress at Cincinnati is George Francis Train's He proposes to put himself on the Presidential track [illegible] John Charles Fremont the hero of the Cleveland side show of 1864 is also at Cincinnati

The thing is fast coming to a crisis What [illegible] Grant if the extent and strength of the movement against him taking the whole country together are measured by the strength and influence of the Oregon delegation at Cincinnati

It is certainly a great Convention in which Jasper Johnson is a conspicuous figure What exclaimed Pope must the priest be, where the monkey is a god?

The Missing Farmer of Polk County

[illegible]

[illegible] (Thursday)

We have heretofore chronicled the circumstances attending the unaccountable disappearance of Isaac G Henshaw from his home on Mill Creek Polk county Sunday morning the 21st He has been found at last and we have the full particulars of the terrible ordeal through which he passed in the most remarkable attempt at self destruction [illegible] recorded in Oregon

[illegible]

It is [illegible] that Mr Henshaw although [illegible] a well to do farmer is subject to fits of [illegible] Saturday night [illegible] his disappearance sprang out of bed several times and looking towards the mountains told his wife that some one was calling She prevailed upon him to return however and he was quiet until morning

HE STARTS FOR THE MOUNTAINS

Sunday morning about breakfast time he stepped out of the door telling the family not to wait for him and started off towards the coast range of mountains After traveling a few miles he took off his vest and concealed it together with his purse in a haystack Further on he threw away his coat and socks and directed his course towards the summit of the range at its nearest point where the drifted snows of winter still lie unmelted

HE LIES DOWN ON THE SNOW TO WAIT FOR DEATH

Reaching a secluded spot where the snow was piled in icy banks he cast himself half stripped as he was upon it to await the touch of a colder hand than winter's and the sleep that knows no waking He lay there Sunday night Monday and Monday night Tuesday morning as hunger began to gnaw within and he despaired of freezing he attempted to return to the settlements fifteen miles distant He became confused however and wandered around all day sleeping upon the snow at night Next morning he made the attempt again following the course of Mill Creek crawling upon his hands and knees much of the time as he was very weak and his feet frozen and eating occasionally of sheep sorrel and thimble berry sprouts

FORTY MEN GO TO HUNT HIM

On the morning of the 27th a company of forty men got together and started out to search for him They found him Sunday afternoon near Buell's Mills in an almost dying state from hunger and exposure He was taken home and Dr J C Grubbs called to attend him He is perfectly rational now and will recover although portions of his feet will have to be amputated being badly frozen He had no food during the seven and a half days he was in the mountains but that mentioned The particulars of the case were given by Mr Henshaw himself

[illegible] On the 15th of last month quite an interesting decision to all church organizations was made by the Supreme Court of the United States The case was one from Kentucky where a Presbyterian church had become divided on questions growing out of the war and both parties claimed the church property The Presbyterian general assembly the highest denominational authority decided that the loyal party was the one entitled to the property but this decision was not respected by the Kentucky court which gave the church to those who sympathized with the rebellion The decision has now been reversed by the Supreme Court which lays down the broad principle that when a local church is but a part of a larger and more general organization or denomination it will accept the decision of the highest ecclesiastical tribunal to which the case has been carried within that general church organization as final and will not inquire into the justice or injustice of its decree [illegible] This court has ever been called upon to consider the relations of the civil to the ecclesiastical courts of the country and it will be seen that the decision is one of much importance to the churches and denominations The case has been held under advisement for a year that there might be a thorough examination of the law and the facts involved

FRIDAY MORNING MAY 3 1872

CITY.

MATRIMONY AND PROGRESS —The people of Multnomah county have always been conceded to be progressive and in order to keep pace with the spirit of the age they have not been unmindful of the fact that matrimony is one of the chief elements of progress To become convinced of this it is only necessary to consult the marriage record of the county Yesterday we availed ourselves of that privilege and took a hasty glance through the certificate book On examination we find that since the first of January 1863 up to the present date there has been issued from the Clerk s office 966 marriage licenses They stand in the following ratio for the last nine years and the fraction of the present

1863 number of marriages	
1864	
1865	
1866	1
1867	115
1868	1 5
1869	0
1870	14
1871	
1872 five mo ths	4
Total	

It can not be denied but that this county has sustained the reputation of being progressive gallic and annexatious but the crown counties stand forth and speak of they can produce a fairer record in proportion the population. The inclination felt toward marital matter have proved both paying and very great inducements to the city and county

OSWEGO CANAL AND LOCKS —We understand that the Tualatin River Navigation and Manufacturing Company have in hand the vigorous prosecution of the canal from Oswego to Tualatin river The company have liquidated all liabilities, and have the means to finish this very valuable enterprise It is intended that by the 1st of next September the canal and locks will be completed, and that the means of cheap transportation will be afforded the people of that section of country bordering on the Tualatin river Several portions of the canal are already finished and are excavated to a depth of from two to twelve feet A new sawmill is to take the place of the present one, and work has already been begun on a new dam which is to be considerably higher than the old one These improvements at Oswego are of consequence to the growing interests of Portland as there will center in it, on account of the improved water power various manufacturing operations which will possibly add to the aggregate of our business transactions

FOR THE NORTH —The steamer *California* sailed for the North last evening at o clock with a full cargo of freight and the following passengers I F Roberts wife and infant Miss A Highland, Mrs Williams H McDonald H H d, G B Talbot, Robert Smith, Elwood Evans, Harvey Hyde, Mr Barrows, Mr Barry Mr Cleaver, Mr Bray Mr Ross R Fulford and wife, Miss Minnie Pixley G B Waldron and wife, Miss Jane Kinetb Mrs Bird and daughter, J H Carney and wife Mr Clinton J C Kellogg, Mr Beston, Mr Fortier Michael Padden, Mr Baranovich A E Armstrong and 10

TAMMANY DAY —The Improved Order of Red Men will celebrate Tammany Day on Monday the 13th inst The grounds selected on which to hold the picnic are down on Sauvie s Island Dancing will be one of the most attractive features of the occasion Extensive arrangements are in progress, prominent among which is the construction of a dancing platform on the grounds It will be 40x80 feet—of sufficient size to accommodate any desired number of dancers The more important preliminary matters of the picnic will be announced in time

DISAPPEARED —The *Bulletin* is authority for the statement that Mr Henry Burmester brother of Theo Burmester, Esq , of this city mysteriously disappeared on last Monday He took a gun and started out to hunt grouse, since which nothing has been seen or heard of him Mr , of this city, informs us that he has heard nothing of the circumstances yet either by letter or telegraph It is to be hoped that the report is without foundation

ELECTED.—At a meeting yesterday of the stockholders of the Tualatin River Navigation and Manufacturing Company, the following named gentlemen were elected Directors Geo L. Curry, Joseph Kellogg W D Hare A F H and J D Merryman At a meeting of the Board of Directors last evening George L Curry was elected President W D Hare, Vice President Joseph Kellogg General Superintendent, and R B Curry Secretary

DIDN'T SAY —In the dispatches of yesterday from San Francisco, it was stated that during the month of April, there had been issued from that place 175 marriage licenses, and in the same connection that 21 persons had been sent to the Insane Asylum The query naturally arises whether any of the victims of matrimony were included in the 21 lunatics It didn t say although there is a wide margin for conjecture

DIED —A late copy of the *Ricaman Guardian* published in Canada, contains an account of the death of Roderick Macleay elder brother of Donald Macleay of the firm of Corbitt & Macleay, of this city Remarking upon his demise the *Guardian* says He was a friend to all known in every home loved for his good nature respected for his kind enterprise and honored for his integrity

THE ASYLUM BRIDGE —The Asylum bridge fell last Friday night Two young ladies on horseback were crossing the bridge when it gave way, and together with their steeds were precipitated to the bottom of the creek Parties near by immediately went to their assistance but strange to say, found the ladies though very much frightened not injured in the least It was a narrow escape So says the *Era*

A MAMMOTH CANE —A cane of herculean proportions, made of Alaskan crab and surmounted with a head manufactured from a walrus tooth was shown us yesterday The stick was brought down on the *Tel/ear* It is a cane of such proportions as to justify the waggish remark of a bystander, that "few men were *able* to carry such a cane" It should be presented to the Giant of Yamhill

REPUBLICANS ATTENTION —The friends of Attorney General Williams are requested to meet at the Court House this (Friday) afternoon for the purpose of making arrangements to give him a befitting reception on this his first return to Oregon since his appointment as a member of President Grant's Cabinet

EXCURSION PICNIC —The pupils of the Portland Academy and Female Seminary will have a picnic and excursion on Saturday 4th inst The train will leave at 8 o clock A M at the West Side depot for Cornelius and return by the same train in the evening Tickets for the round trip 50 cents

NARROW GAUGE —The bark *R al* which left San Francisco on the 28 h ult has on board a locomotive and fixtures of the narrow gauge pattern, consigned to D S Baker It is designed for use on the Columbia River and Walla Walla Railroad, now in process of construction

FINE RESIDENCE —Mr A H Jordan architect, has prepared plans and specifications of an elegant residence for Jacob Kamm Esq It is to be built on the property of Mr Kamm Main and Twelfth streets The contract for building will be let next Monday

IMPROVEMENTS OF PORTLAND —Some idea may be formed of the character and extent of the improvements made already and in progress in this city, when it is estimated that the total amount of such improvements this year will aggregate $365 900

WILL RETIRE —Captain Theodore I kerson

MEN WANTED —The dispatches from San Francisco state that three thousand men are wanted to work on the Oregon and California Central, and Northern Pacific railroads

Assistant Quartermaster so well known in military and civil circles in Portland has lately received orders to report to the Retiring Board at Philadelphia for examination

PEOPLE'S CONVENTION —Mrs A J Duniway of the *New Northwest* went east on the last steamer to attend the People s Convention which assembles at New York

TILLAMOOK WAGON ROAD.

We were favored with a call yesterday from Mr Squires, who has resided at Tillamook for several years past From him we learn that an enterprise is on foot among the citizens of that county for the opening of a good passable wagon road from the Bay to Portland So confident are the people of that section of the ultimate success of the enterprise and of its entire feasibility that they have subscribed the sum of $1 100 toward the commencement of the work To build the required connections an additional sum of $4 000 will be necessary The whole distance from this city to the Bay is about 7 miles The proposed route will lie through the most favorable pass in the Coast Range of mountains

Mr Squires is now engaged in canvassing for subscriptions for this road As the main class of our citizens who are interested in the beginning and completion of this enterprise are the merchants of Portland Mr Squires will give them a call and afford an opportunity to contribute something towards the project Unless some steps are taken to secure more speedy transportation and cheaper rates for freight than by sailing vessels we are led to believe from the statements of Mr Squires that the products and the rising business of that growing section will pass to another and a more profitable channel to the producer—probably center at San Francisco

Tillamook county contains an area of about two thousand square miles The agricultural section is some twenty miles long by ten in width The arable lands are composed of rich prairies and marshes possessing a wonderful fertility Wheat oats barley hay and potatoes are grown there in great abundance It has no superior as a dairy country the grazing lands being at the present season of the year clothed with a very luxuriant growth of nutritious grass knee high The country as yet has no good grist mill There are two mills but they can only grind coarse feed for cattle and hogs In that region the growth of timber is unsurpassed and an unlimited supply of water power is furnished by the various streams that empty into the bay At present there are two sawmills in operation Two more are in process of erection, one of which will be completed in the course of a month During last summer over 100 000 feet of superb cedar lumber were cut at those mills and shipped to this city

The bay affords all the shipping facilities for a much larger section of country Ships of 300 tons burden can enter and depart with ease and perfect safety At low tide the depth of water in the bay is about nine feet Some idea can be formed of the extensive dairies in operation there when nearly 24 000 pounds of excellent butter were sent to this market last year One man alone sent to market 2 600 pounds Dairymen are selling butter to merchants and traders at the Bay at fifteen cents a pound

Five cargoes of merchandise were shipped last year from Portland to Tillamook in the aggregate about 250 tons The cost of shipping is $15 per ton between the two points This is regarded as too exorbitant by the farmers, as it eats up all the profits which would otherwise be realized in the products of their farms Mr Squires states that he has known of instances wherein the farmers would not dig their potatoes because there was no market and no profit from shipment Hundreds of bushels were allowed to rot in the ground The last year over 3 000 bushels of this vegetable alone were exported and 300 bushels of timothy seed The latter article is produced in great abundance

Probably there is no section of country on this coast which is more prolific in natural resources than Tillamook Rich oyster beds are found at Netarts Bay, capable of producing 3 000 bushels per year This amount is the native production of the oyster beds If care was taken in planting out oysters the yield would be doubled several times Blue and brown sand stone suitable for building purposes is found in large quantities There are also abundant salmon fisheries on the bay and along the streams emptying into it Recently rich veins of stone coal have been discovered A few miles east of the bay it is said there stands literally a mountain of pure limestone

Tillamook has a population estimated at 700 The proposed wagon road will be opened on a fork of the Yamhill, and continue down the Nestucca and Tillamook rivers

The people of that section are very anxious to secure at as early a day as possible a good wagon road directly to this city to connect with the western branch of the railroad They will contribute toward that result as far as their means will allow Merchants and citizens of Portland, as well as others to be affected by the opening of this road, should heartily extend the required aid

AMUSEMENTS.

COMPLIMENTARY BALL —The Armory Hall was literally jammed last evening on the occasion of the ball given under the auspices of the officers and members of the Washington Guard So great was the crowd that the capacity of the hall was insufficient to accommodate the dancing It proved a very enjoyable affair Dancing was prolonged to an early hour this morning

CARD —Professor Cardinell desires to express his sincere thanks to those gentlemen who so generously surprised him by taking the initiatory steps for the complimentary ball at Armory Hall on Tuesday evening last and by their energy and good will brought about so great a success He begs to assure them as well as the patrons of the ball that their kindness will be ever gratefully remembered by him

GONE TO VICTORIA —Manager Waldron and troupe departed last evening for Victoria where he goes to open the theater for a short season We learn that Mr Waldron s intention is to return to San Francisco when the season at Victoria closes He will return to this city next fall and open a season at Oro Fino Theater

PHILHARMONIC HALL —The colored hop at Philharmonic Hall last evening was a pleasant affair

Mr W S Ladd Treasurer of the Conference Board of Church Extension, has left with us a lot of the Sixth Annual Reports of the Church Extension Society of the M E church

At the monthly meeting of the Taylor street M E Sunday school on last Tuesday evening Rev G W Izer J K Gill and F J Nottingham were appointed as delegates to attend the Sunday School State Convention to be held at Albany on the 28th 29th and 30th of the present month

Instead of the usual concert exercises of the Taylor street M E Sunday school on next Sunday a committee especially appointed for that purpose has arranged for a number of short addresses by several of the Superintendents connected with the various Sabbath schools of this city and has provided singing books for the use of the congregation

A committee has been appointed by the Taylor street M E Sunday school at their last monthly meeting to make all the necessary arrangements for the annual May picnic Among their plans suggested is an invitation from Bro H berg to go to Cornelius in Washington county the terminus of the Oregon Central railroad but as yet the committee has not had time to make any arrangements at all

The Yellowstone National Park.

From Scribner's for May

The hungry patrons of cheap restaurants down town must occasionally have been edified by the notice posted conspicuously over the counter, that "all pastry consumed in this establishment is made on the premises." Without committing ourselves to the general principle of protection for home manufactures, we may afford to rejoice at any measure tending to encourage the practice of doing our own pleasuring within our own borders. The recent Act of Congress concerning a singularly picturesque tract of land known as the Yellowstone region, will call attention to the unexampled richness of Montana and Wyoming Territories as a field for the artist or the pleasure tourist, while it aims to ensure that the region in question shall be kept in the most favorable condition to attract travel and gratify a cultivated and intelligent curiosity. By the Act, some 2,500 square miles of territory at the head waters of the Yellowstone river are set apart as a National Park (!) with a Superintendent (the Secretary of the Interior) authorized to take all measures to keep the region in such condition as most fully to answer its purpose of a gigantic pleasure-ground. Verily a colossal sort of junketing place! The Yankee in the story book claimed that America could boast of bigger lakes, larger rivers, louder thunder, and forkeder lightning than any other country. If any one doubt this hereafter, we shall refer him to the Yellowstone Park. Everything in it seems on a scale out of all proportion to ordinary experience and conventional habits of thought. While European potentates spend millions on millions of francs to dig out little rills or lakes, or painfully heap up little nuggets of rock-work in their artificial pleasure grounds, Nature has given us one here, ready made, which dwarfs every other, natural or manufactured. As little children of a holiday afternoon amuse themselves with building dams, cutting canals, and raising mud hillocks in the cabbage garden or the gutter, so here the Titans and Æons of the elder world seem to have refreshed themselves, in some leisure cycle of geologic growth, with playing at scenery. They did it lustily and *con amore*. Why should we waste ourselves in unpatriotic wonderment over the gorge of the Tamina or the Via Mala, when nature has furnished us with the Grand Canon of the Yellowstone, in which the famed Swiss ravines would be but as a crevice or a wrinkle? Why run across the sea to stifle and sneeze over the ill odors of Solfaterra, when we can spoil our lungs or our trowsers to better effect, and on an incomparably larger scale, with the gigantic boiling springs and geysers of Montana? And why strain and stiffen our backs in staring up at Terni or the Schmadribach, which are but as side-jets and spray flakes to the Titanic majesty of Wyoming Lower Falls?

Of the detailed wonders which we hear only hinted at, no reader of our Magazine for the last year or two will need to be reminded. It will not be forgotten that along with our descriptions of this curious tract, the suggestion was made which has been carried out in the recent action of Congress. A contemporary publication has lately discussed with some gravity the question whether the tide of mountain travel can ever be expected to set westward,—whether Americans or Europeans, turning away from the familiar terrors of the Alps, may be drawn to whet their appetite for adventure on the peaks and ravines of the Sierras, and Shasta or Mount Tyndall come to be as fascinating to the all-conquering cragsman as the Lyskamm or the Matterhorn. The present disclosures certainly tend to render it probable. When the North Pacific [illegible], as we are led to hope will be the case, drops us in Montana in three days' journey, we may be sure that the tide of summer touring will be perceptibly diverted from European fields. Yankee enterprise will dot the new Park with hostelries and furrow it with lines of travel. That the life will for some time to come be frightfully rough, the inconveniences plentiful, and the dangers many and appalling, is likely enough. But that is just the spice which will most tickle the palate of our adventurous tourists of men of science.

An Ungrateful Railroad.

Jones had heard about a widow who saved a train of cars from destruction by warning the engineer, as the train approached, that a certain bridge had been washed away; and who had been liberally rewarded, receiving a free pass for life on nearly all the railroads in the country, and a present of ten thousand dollars from the company whose train she had saved; so Jones thought it pretty profitable business and concluded he'd try it.

He lived near a railroad bridge, and he anxiously watched and waited for it to wash away, feeling sure that it must go some time. Every rainy night he got up and paced the floor by spells, then took his umbrella and went out to see if the bridge was beginning to go; but it was no go.

At last he concluded that if an accident would not happen of its own accord he would make one to order, so he got up on a high bank at the side of the track one afternoon and rolled a big rock down upon the rails.

It was just a few minutes before the lightning express was due, and throwing off his coat and hat, so as to appear as excited as possible, he went forth to meet it. He saw it coming in the distance, so he tied a red cotton handkerchief to a hoe handle, and waved it above his head in a wild excited manner as a signal of danger. But he presented such a singular appearance that the engineer thought him a crazy man, escaped from a neighboring lunatic asylum, and so paid no heed to him, and the train thundered on.

There was a sudden whistle of "down brakes," a rapid reversing of the engine then a terrible crash. The train was wrecked; the engineer and fireman instantly killed, the conductor and all the brakemen dangerously, if not fatally wounded; and about ten per cent. of the passengers horribly mangled.

Jones didn't get a pass for life on the principal railroads of the country and a purse of $10,000, but he got ten years in the penitentiary for manslaughter, having been seen by a neighbor when in the act of rolling the big rock on the track which caused the calamity.

And now he is learning to manufacture shoes by the original process, and is of the opinion that railroads are a curse to the country.—*Boston Times.*

The Vice Presidency.

From the Pittsburg Gazette.

As the time for holding the National Republican Convention draws near, the merits of the different candidates are discussed, with their relative bearings upon the canvass. In this portion of the State, we believe, the feeling, up to this time, is universal among Republicans that General Grant shall head the ticket. As to the Vice Presidency, there is some little difference of opinion, a few desiring the nomination of Wilson, of Massachusetts, others preferring Wilson, of Iowa, some Scott, of this State, but the preponderating sentiment appears to favor the renomination of the ticket of 1868, with which a grand victory was achieved. Grant and Colfax, we are well satisfied, would please the majority of our people, and unless some better reason than any yet furnished is given for making a change, we incline to the belief that this will be the ticket, and with it we can again sweep the country triumphantly. The nomination of Colfax appears to be demanded by the West, and particularly by Indiana, his home. He has made a most excellent officer, coming fully up to the highest expectations indulged in, and we have yet seen no good reason for dropping him from the ticket. Grant and Colfax!—there is magic in the cry, and under this banner we hope to win the coming struggle.

FINANCE AND COMMERCE.

THURSDAY EVENING, May 2, 1872.

Gold in New York [illegible].

Portland [illegible] rates, [illegible] buying and 91 selling.

[illegible] arrived from San Francisco for this port in the 19th April, the [illegible] on the 21st and [illegible] at the [illegible]. For freight lists of these vessels which we present below, we are indebted to Knapp, Burrell & Co.

The bark *Garibaldi*, Capt. Noyes from [illegible] out for this port 17 days.

The steamer *California* sailed for Victoria and Sound ports this morning at [illegible]. She took [illegible] of freight, as follows: [illegible] Flour; 35 kegs Dried Apples; 24 [illegible] Bacon; 4 [illegible] and 4 casks Hams; 2 [illegible] Oatmeal; 1 cs Woolen goods.

[illegible] collected at this port (gold) since the 1st January last aggregate $102,732 99.

The scarcity of money here continues. Monthly collections are not easy. It is extremely difficult to borrow even on the best security. Persons whose necessities compel them to obtain money are forced generally to pay a heavy premium for it. In San Francisco, on the other hand, the supply is quite sufficient, notwithstanding heavy demands for mining transactions. Wide spread as has been the mania on many former occasions to deal in stocks, the present excitement throws all former experiences into the shade. People whom one would never have suspected of venturing anything in the shape of money are now plunged over head and ears into the vortex. Nevertheless money is easily obtained. Now-a-days an individual needing accommodation, and having real estate or other security of undoubted value, does not hesitate to announce his determination to pay no more than 9 per cent; formerly the bank assumed the privilege of fixing the rate of interest. The difficulty here is that the volume of business has vastly increased without corresponding increase of the circulating medium.

Cargoes of Coos Bay Coal are selling in San Francisco at $11 a ton. This is an advance of $1 over previous rates. The advance is said to be necessary to cover the increased cost of freight. Vessels suited to the trade are scarce and much wanted.

The magnitude of the Sugar trade for this coast is quite astonishing and the increase is prodigious. At San Francisco the imports thus far in the year are 22,757,168 lbs, against 16,007,254 lbs the same time last year, and 12,294,980 for a corresponding period in 1870. Prices continue to rule low.

A few small lots of Wool of the spring clip are beginning to arrive at the mills. Prices paid are from 10 to 35c. In California Wool is coming forward fast. Shipments to the East are thus far much below those of last year, the clip being mainly in the hands of speculators who bought at low price and are holding for high.

The Stockton (Cal.) *Independent* thinks that the published estimate of the coming crops of that State is greatly over the mark. It says:

The severe winds which have prevailed at intervals during the last three weeks, together with the absence of rain, must greatly reduce the yield of this valley, and unless we have copious showers within a few days, the prospect of grain sown late in the season will be very poor. At the present time the early sown grain looks very promising, yet, owing to the poverty of the farmers and the difficulty of procuring seed, the amount of land seeded before the heavy rains is much less than it otherwise would have been.

In some localities the grain has been considerably injured by frost, and large areas have turned yellow in consequence. It seems certain that the California crop will not come up to expectations formed two or three months ago.

Produce Market.

FLOUR—Market shows more tone. Local demand continues fair. Shipments north are considerable, and the call for Oregon Flour in San Francisco, for shipment east, has a tendency to harden the market. The market is therefore firm, but quotations are not changed. Standard brands, $6 75; choice country, $6 25@5 50; outside and superfine, $4 50@4 75 ⅌ bbl.

OATS—Demand light. None wanted except a limited supply for local use. The range of the market is 70@75c per bushel.

HAY—Prices seem weaker. Growth of fresh grass limits the demand. Good timothy will bring from $20 to $22 per ton.

BACON—Very little Oregon in market. The eastern supply continues large. Western [illegible] sides at 14@15c, hams, 16c; shoulders, 10@12c. Oregon cured meats of all sorts are scarce. Oregon sides and hams, first quality, will command a little more than Eastern.

BUTTER—The bulk of the supply still comes from California. Good Oregon is, however, now offering more freely. We quote the range of the market from 23 to 25c per pound.

POTATOES—Receipts, both from California and Puget Sound, are large, and the market is full. The best varieties are quotable at 75c per bushel.

EGGS—There is little to note. Receipts continue free. Quotable at 22@25c per dozen.

POULTRY—Chickens are scarce and wanted. We quote at $6@6 50 per dozen.

REPUBLICAN PLATFORM.

RESOLUTIONS ADOPTED BY THE STATE REPUBLICAN CONVENTION AT PORTLAND, MARCH 20, 1872.

The Union Republican party of Oregon, in Convention, makes this declaration of its principles and policies:

1. To the Constitution of the United States and all its amendments we pledge our unfaltering allegiance, to its authority a willing obedience, to its full and legal construction and enforcement our constant support.

2. That the success of the present National Administration in reducing the public debt, diminishing and equalizing taxation, administering every branch of public affairs with economy and efficiency, reforming and improving the civil service, enforcing the laws without fear or favor, protecting the nation's wards with paternal care against the cruel avarice of speculation and fraud, and maintaining friendly relations with Foreign Powers, has been such as to command the approbation of the great majority of the American people, and justly entitle it to the confidence and commendation of every true Republican.

3. We regard the payment of our national debt, in full compliance with all legal obligations to all our creditors everywhere, and in accordance with the true letter and spirit of its contracting, as no longer a question in issue; but that we may be clearly understood, we denounce all forms and degrees of repudiation of that debt, as affirmed by the Democratic party and its sympathizers, as not only national calamities, but positive crimes, and we will never consent to a suspicion of lack of honor or justice in its complete satisfaction.

4. We admit of no distinctions between citizens, whether of native or foreign birth, and therefore we favor the granting of full amnesty to the people of those States lately in rebellion, and we here pledge the full and effective protection of our civil laws to all persons voluntarily coming to or residing in our land.

5. We favor the encouragement of railroads by the General Government of the United States, and hold that such disposition should be made of the public lands as shall secure the same to actual settlers only, in quantities not exceeding 160 acres.

6. That while we are in favor of a revenue for the support of the General Government, by duties upon imports, sound policy requires such adjustment of these duties on imports as to encourage the development of the industrial interest of the whole country; and we recommend that policy of national exchange which secures to the working men liberal wages, to agriculture remunerative prices, to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the Nation commercial prosperity and independence.

7. We believe that popular education is the true basis and [illegible] of a free government, and that we are opposed to any diversion of, or interference with the common school funds or lands in the State, for any other than their legitimate purpose, and we condemn the act of favoritism by the last Legislature whereby two hundred thousand dollars, taken from the school fund, were granted to a corporation consisting mainly of Democratic leaders and party favorites, for the construction of a work which another corporation, entirely sound and responsible, offered to construct for seventy five thousand dollars less, and that we are in favor of the passage by the Legislature of an efficient school law, such as shall secure to all citizens of our State a good common school education.

8. We find no terms sufficiently strong to express our disapproval of the conduct of the last Legislature whereby the swamp lands belonging to this State have been taken from the needy settlers, and given without [illegible] competition in price to the land grabbers and speculators whereby the emoluments and salaries of State officers have been unconstitutionally increased, and the taxes increased thousands of dollars by the creation of new and unnecessary offices and salaries, for the purpose of providing for party favorites; and whereby the citizens of our metropolis have been deprived of and denied the right of controlling their police authority. And we equally condemn the administration of our State officers and laws as extravagant, reckless, illegal and destructive, and we rightfully charge all these results as the acts of the Democratic party.

9. We are in favor of the United States giving to each honorably discharged soldier who served in the armies of the United States to put down the rebellion a warrant for a homestead of 160 acres of public lands.

10. That we demand the repeal of the so called [illegible] act, which was devised to support pauper Democratic newspapers at the public expense.

11. That the Republican party of this State are in favor of the General Government extending aid toward building a railroad from Portland, Oregon to Salt Lake City, and from Jackson county to Humboldt; and we hereby pledge our party representatives to the support of the same.

12. That the indiscriminate licensing of persons to sell spirituous liquors without being placed under proper responsibilities for the abuse thereof, having been found by experience to promote the growth of crime and pauperism, and thereby to seriously increase the rate of taxation, the Republican party recognizes the right and duty of the law-making power to prevent and limit the evils and abuses of such sale so far as consistent with the public good and is consistent with individual liberty, by refusing to license other than law-abiding and responsible persons, who can furnish sufficient sureties for good conduct.

13. That the Republican party of Oregon is in favor of obtaining assistance from the General Government for the construction of a wagon road from the city of Portland to the Dalles, recognizing this as a most important and necessary improvement of the State.

14. We affirm that the continuance in power of the Republican party is the only safe guarantee of a continuance of peace and prosperity; and [illegible] we point to its [illegible] record in the late civil war, to a complete nationality, to a [illegible] of all the eleven seceded States, to our Territories equally with our States free, to a nation freed [illegible] from the curse of human slavery, to an elevated and enlarged citizenship, to our national standing at home and abroad, to the works of vigorous reform in all discovered abuses of authority [illegible], to an unequaled foreign credit, to a successful and solid financial system, and to the unparalleled peace and prosperity everywhere in our broad domain, and these are our pledges for the future.

15. We hail the "New Departure" of the late Democratic party, taken by the action of their conventions in seven States, as an affirmation of the principles for which the Republican party has contended for the last [illegible] years, and in the "Passive Policy" of that party, already assumed in several of the States, [illegible] acknowledgment of their hopelessness of success in the [illegible] Presidential campaign.
